AI Co-Workers for Autonomous Cyber Risk Management

SAFE (Palo Alto, California) builds AI Co-Workers for autonomous cyber risk management. Powered by 100+ specialized AI agents, SAFE TPRM AI Co-Worker manages risk across the vendor lifecycle, while SAFE CTEM AI Co-Worker continuously identifies, prioritizes, and validates enterprise exposures.

The result is an intelligent system that links strategy to execution, internal enterprise to external ecosystem risk, and data to measurable outcomes; giving leaders clear visibility, precise prioritization, effective remediation, and the ability to scale cyber risk management across the organization.

SAFE has a global team of over 250+ rockstars, and has raised over $170M from investors including Avataar Ventures, Sorenson Capital, Fidelity Investments, and John Chambers—while achieving more than 100% y-o-y revenue growth.

SAFE

The Leader in Autonomous Cyber Risk Management

- **Industry Leader in Third-Party Risk Management, 2026**: Leader in the IDC MarketScape: Worldwide TPRM Software 2026
- **Leader in Third Party Risk Management, 2026**: Undisputed Leader in the 2026 Liminal Report for Cybersecurity TPRM Solutions
- **Visionary in CTEM:** SAFE (Balbix) is a visionary in 2025 Gartner® Magic Quadrant™ for Exposure Assessment Platforms

Why Global CISOs Trust SAFE

💡 **Agentic AI-native and Data-Driven**
The first solution to achieve 100% autonomous cyber risk management with 2 AI Co-workers, 100+ AI Agents, and in-built Agentic workflows

💡 **One Platform, Two Solutions: TPRM and CTEM**
The industry's only solution to offer a unified platform for tactical (exposure) and strategic cyber risk management, across enterprises and third parties

💡 **100% Built on Open Standards of FAIR, MITRE, STIX**
The only solution in the market to have its foundation on internationally accepted standards, providing unmatched transparency and confidence

💡 **Industry Leader and Creators of FAIR**
The pioneer of Cyber Risk Quantification and leader in TPRM, SAFE created the FAIR™ standard and set the benchmark for measuring cyber risk in business terms

💡 **Accuracy and Credibility that Cyber Insurers Trust**
SAFE is trusted by global brokers and underwriters enabling customers to get superior insurance coverage at discounted premiums

TRUSTED BY INDUSTRY LEADERS
